# LABORATORY STIRRER

Great things come in small packages!

## FEINSTARBEIT MIT KLEINSTEN RÜHRWERKEN

With the new product range of handy laboratory stirrers, ibW covers the application area for laboratories and technical centers.

We have the ideal solution for different requirements such as stirrers and gear-motors. The relevant accessories are available as single modules or as a complete set. At ibW, we are well-known for our flexibility, and our models UniRex®, RotoRex® and TurboRex® are also available on a laboratory scale.

Selection and purchase online: [www.ibw-shop.com](http://www.ibw-shop.com)

We guarantee fast processing and delivery, high availability, as well as simple and clear transactions.
